

# WESTCO FILTERS

Liquid Filter Solutions since 1982

Westco is a leading supplier of top quality filter plates for companies in a variety of industries. We stand out above the competition thanks to our exceptional customer service, high-quality products, and dedication to making a positive impact on the planet.

Our filter plates have been designed to be compatible with most makes and models of filter presses. Our Sales and Service Team can recommend an appropriate filter plate based on your company's equipment and needs.

We offer the following types of high-density polypropylene plates:

- Gasketed
- Non-gasketed
- Centerfeed or cornerfeed
- Conventional recessed chamber or diaphragm squeeze

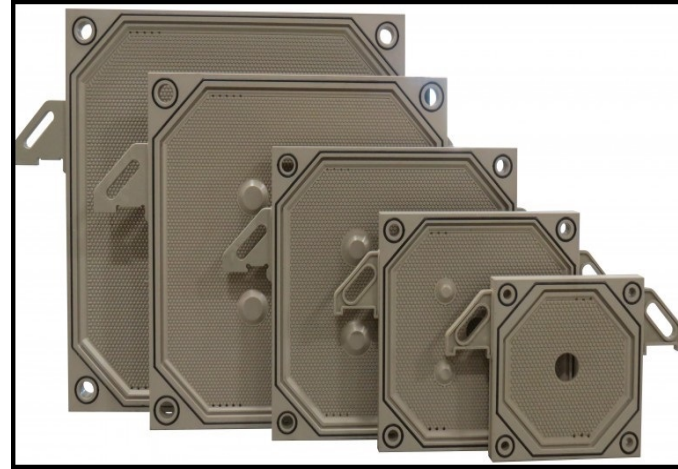

Please call or email us to learn about the differences between the various types of filter plates on the market and we will help you make an informed decision.

## Customized Plates

We can also design customized plates based on your company's specifications. We aim to provide you with a high-quality product at a reasonable price. We know that not having the correct filter plates can disrupt your productivity, so we strive to provide a quick turnaround time on all materials to minimize your company's downtime. We keep an extensive inventory of filter plates and other filter press parts, which allows most orders to be fulfilled and shipped as soon as they're placed. A service representative will provide an estimated turnaround time for custom products.

## Maintaining Filter Plates

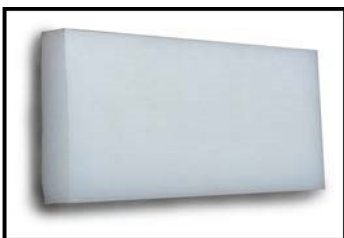

Westco also offers installation and maintenance tools. Gasketing material, O-rings, deadblow hammers, wedges, handles, and air hammers can all be found in our inventory. Our sales experts can let you know what additional items you will need for installation and basic repairs.

## Types of Plates

- Polypropylene Plates
- Nylon Plates
